

## LED Soft Panel Light

### TV-SN600

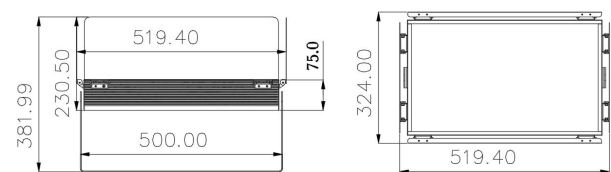

#### Optical System:

- ⊙ Light source: 432 cold white LED lamp beads.
- ⊙ Expected service life of LED: 20000H.
- ⊙ Color rendering index: CRI 95.
- ⊙ Spot angle: 111°.
- ⊙ Color temperature: 3200K / 5600K / dual-color optional.

#### Physical parameters:

- ⊙ Input voltage: 110-240 V, 50 / 60 Hz.
- ⊙ Power: 150W.
- ⊙ Net weight: 6 Kgs.
- ⊙ Dimensions: 519.4 \* 324 \* 75mm.
- ⊙ Maximum online number: 10 (240V / 50Hz); 5 (100V / 60Hz) 1.5mm power cord.

#### Product size chart:

#### Main Features:

- ⊙ Silent operation, no flicker output, suitable for any high-demand shooting scene.
- ⊙ 0~100% smooth dimming.
- ⊙ The spot Angle is large and soft, uniform.
- ⊙ No flicker under the HD camera.

#### Structure:

- ⊙ Display: a 4-bit digital tube display.
- ⊙ Signal input / output: three-core Canon head socket.
- ⊙ Socket: Power connector input / output.
- ⊙ Protection level: IP20.
- ⊙ Working environment: -10°C -45°C.

#### Control:

- ⊙ Control mode: DMX, manual master-slave machine, RDM.
- ⊙ Control channel: 6.

#### Factory configuration:

- ⊙ instructions.
- ⊙ power line.
- ⊙ insurance rope.
